Total Worker Health[®] 101: Basic Principles

Instructors: Liz Hill, MPH, CIH, CSP SAIF

Dede Montgomery, MS, CIH OHSU

Course Introduction, Participant introductions, Alliance Curriculum & Objectives

Key objectives

Define Total Worker Health[®](TWH) & key terms

Identify TWH 101 Health Core Principles

Identify the five defining elements of TWH

Illustrate how organizations can implement TWH

Develop “next steps” applicable to your organization

Total Worker Health 101: Core principles

- How we define TWH and key concepts.
- Leadership, employee engagement and culture all affect TWH.
- Health, safety and well-being outcomes intertwine and interact.
- TWH affects organizational value and costs.
- Effective TWH programs require evaluation, sustainability and continuous improvement and confidentiality.

Part 1: Understanding TWH

What is Total Worker Health[®]?

A large, dense crowd of stylized, flat-design human figures representing a wide variety of professions and industries. The figures are packed closely together, filling the lower two-thirds of the frame. They include police officers, firefighters, chefs, construction workers, healthcare professionals, and many others in business and casual attire. The color palette is vibrant and varied, emphasizing the diversity of the workforce.

Total Worker Health[®]

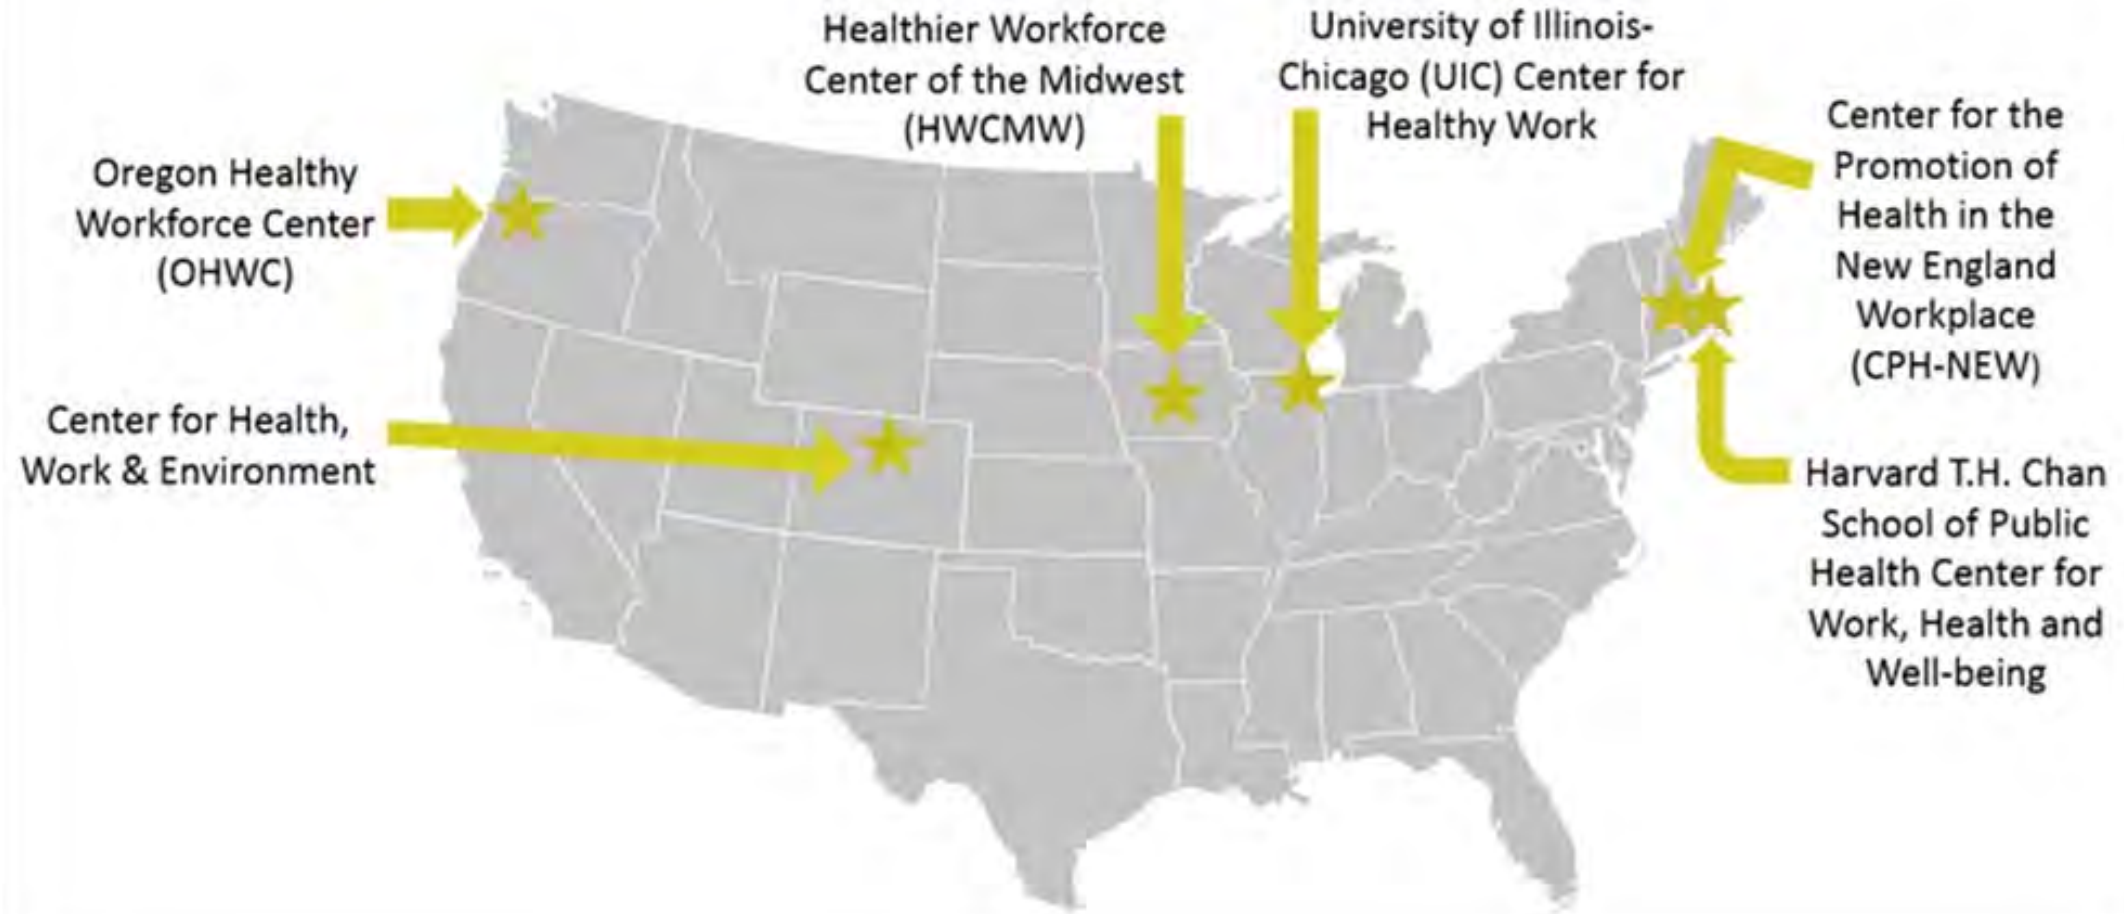

What is Total Worker Health[®] ?

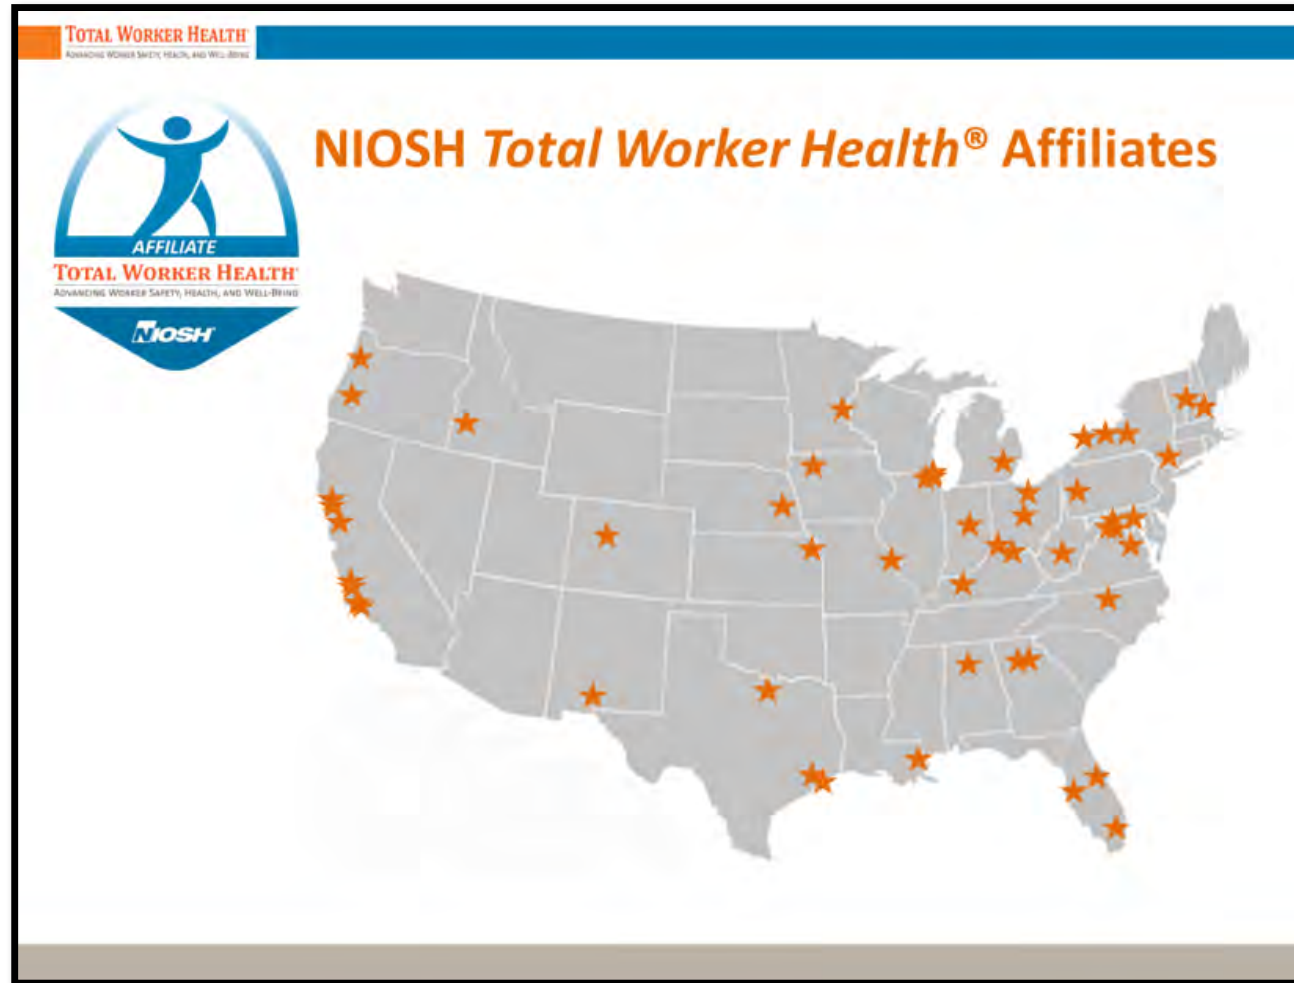

....policies, programs, and practices that
integrate protection from work-related safety & health hazards
with promotion of injury and illness prevention efforts
to advance worker well-being.

Why does work influence our
health and well-being?

Why does work influence our health and well-being?

- Work conditions determine risk for injury, illness and disability
- Work provides access to most health-related benefits
- Important aspects of our work such as wage and location influences our health and the communities in which we live
- Our work influence our commutes which impact our health.
- Work controls many elements of our daily life, particularly the time we have for physical activity, healthy eating, relationships, and rest and sleep.

Part 2: TWH Concepts

Worker Well-being

Measuring well-being

Meaningful Work

John Howard on Stress

Psychosocial Stress

- Experience coming from any type of interaction with people.
- You may feel high blood pressure, sweating, rapid heart beat, dizziness and feelings of irritability or sadness.
- What might be different stressors or causes of psychosocial stress?

Stress and Health

- The more control we have over our life or schedule gives us higher well being and may buffer other negative stressors.
- The higher our skill level, occupational grade, and job complexity the higher our general physical and mental well being
- Social support and social integration are associated with better health and longevity.

Tips to reduce workplace stress

- Create more control and autonomy
- Social Support
- Demonstrate commitment to offering help
- Encourage people to care for one another
- Fix the language
- Support shared connections

Part 3: TWH Defining Elements

Fundamentals of TWH

- Element 1: Demonstrate leadership commitment to safety and health at all levels.
- Element 2: Design work to eliminate or reduce safety and health hazards & promote worker well-being.
- Element 3: Promote and support worker engagement through program design & implementation.
- Element 4: Ensure confidentiality and worker privacy.
- Element 5: Integrate relevant systems to advance worker well-being.

Fundamentals of *Total Worker Health®* Approaches

Essential Elements for Advancing
Worker Safety, Health, and Well-Being

National Institute for Occupational Safety and Health

Leadership commitment

Healthier and supportive supervision

Supervisors can be supportive by:

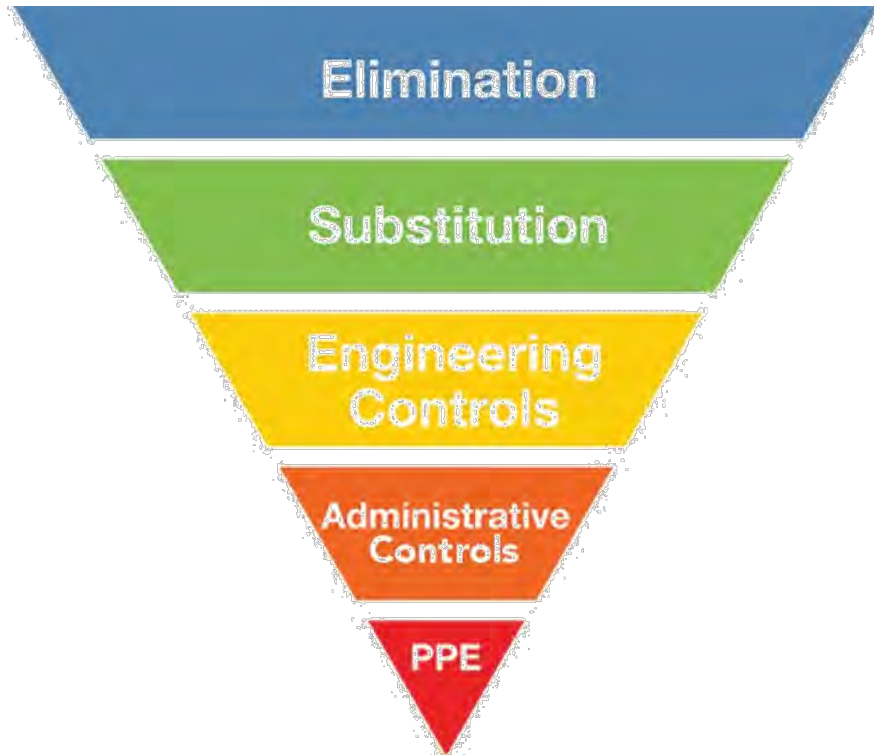

- Recognizing pressures and demands of personal/family responsibilities
- Communicating genuine concern and understanding
- Being knowledgeable about work-life programs, resources and policies
- Sharing how they manage their own work-life responsibilities
- Being clear about expectations and how the job should be done; Providing guidance on how to best communicate in a team

schedules enhance safety and well-being

A scenic landscape featuring a calm body of water in the foreground, which perfectly reflects the sky and the surrounding forest. The sky is filled with large, white, puffy clouds against a blue background. The forest consists of various trees, including tall, thin deciduous trees without leaves and a denser line of evergreen trees in the background. The shoreline is visible in the lower right corner, showing dark, wet earth. The text "Final thoughts" is centered over the middle of the image in a white, sans-serif font.

Final thoughts
